Acknowledge

As we understand that the eProject is a step-by-step learning environment that closely simulates the classroom and Lab-based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. laddered approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real-life projects.
- ✓ Give a real-life scenario and help to create applications that are more complicated and useful.
- ✓ Mentoring through email support.

First of all, I would like to thank India Aptech for allowing my team to work on this fantastic eProject. We had a great experience with eProject this time.

Next, We would like to express my special thanks to our mentor, Ms. Ha Vy for the time and effort that she provided throughout the project. Your helpful advice and suggestions were beneficial to us during the completion of the project. In this respect, We are forever grateful to you.

Besides several mistakes we made in the project, we hope to have more opportunities to widen our knowledge in the web-developing world.

We will try to continue to learn and improve ourselves even more in the future.

Yours Sincerely,

Team Group 02.

Synopsis

The Objective of this program we aim is to give a sample project to work on real-life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real-life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with the assistance of the faculty if required.

The website (in this project) is a tool that brings everything in the world to you such as historic monuments information natural knowledge and skill in technology...

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per the requirements given.

And get back *eprojects@aptech.ac.in* as the assigned schedule.

Problem Definition

Star Classes is into business for more than a decade. They have been advertising specializing in about their coaching classes through newspapers, pamphlets, television. Now with changing times, they have decided to go online as most of the students today are frequent users of Internet. They have planned for a website with complete details about the Coaching classes. You are supposed to create a Single-Page-Application and responsive Website for them with the below mentioned requirement specifications.

The website is to be developed for the Windows Platform using HTML5, JavaScript butter, and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

Our Motto: Where smiles are served daily.

Requirement Specification:

The Web site is to be created based on the following requirements.

- 1) The Top of the Page should have suitable logo, and decent colour combination.
- 2) Information should be neatly placed at suitable location.
- 3) Various sections having information about different courses/subjects taught at the classes, Faculty/Teachers complete information and previous year's success stories should be listed.
- 4) The site should display a menu which will contain the options for brief introduction about the above mentioned information, location/address of the coaching classes and any other information if required.
- 5) The information should be categorized according to different subjects like if a User wants to see details of 'Commerce' then he click on a Link/button/menu

etc and he will see details of course structure of commerce. Similarly for ‘Mathematic’, ‘Languages’ and other subjects. Proper Filter Options should be available.

6) When a user selects any course stream, complete list of subjects for that course stream will be displayed.

7) Details of the courses should be displayed on the Web Page along with the title and it should be available for download.

8) Price List for all courses should be available for download.

9) There should be a “Contact Us” section which will have the Address of the Coaching Classes and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps).

Over and above this, the portal should implement the following functionalities:

- Display a continuous scrolling ticker at the bottom of the page with current date, time, and location (hint: Use geolocation features of HTML5).
- Display a visitor count at the top right corner of the page beside a logo image.
- The menu options should change color on hover and also after clicking.
- Fade in and fade out options can be used for the menus.

```

Twitter Bootstrap CSS:

```
<link rel="stylesheet"
href="https://code.ionicframework.com/ionicons/2.0.1/css/ionicons.min.css" />
```

Process:

- Design and develop a Single-Page-Application (SPA) architecture for the website.
- Implement responsive web design principles to ensure compatibility with different devices and screen sizes.
- Use HTML5 to structure the website's content and incorporate modern features and functionality.
- Utilize JavaScript for client-side interactivity and dynamic behavior.
- Incorporate Geolocation functionality to provide location-based services or information.

Output:

- Display comprehensive information about the coaching classes and gym classes, including courses offered, faculty details, class schedules, pricing, and contact information.
- Ensure the website is visually appealing, user-friendly, and accessible on various devices.
- Support smooth navigation and seamless user experience across different browsers.
- Leverage the features and capabilities provided by HTML5, JavaScript, and Geolocation to enhance the website's functionality and user interaction.

Hardware/ software requirement:

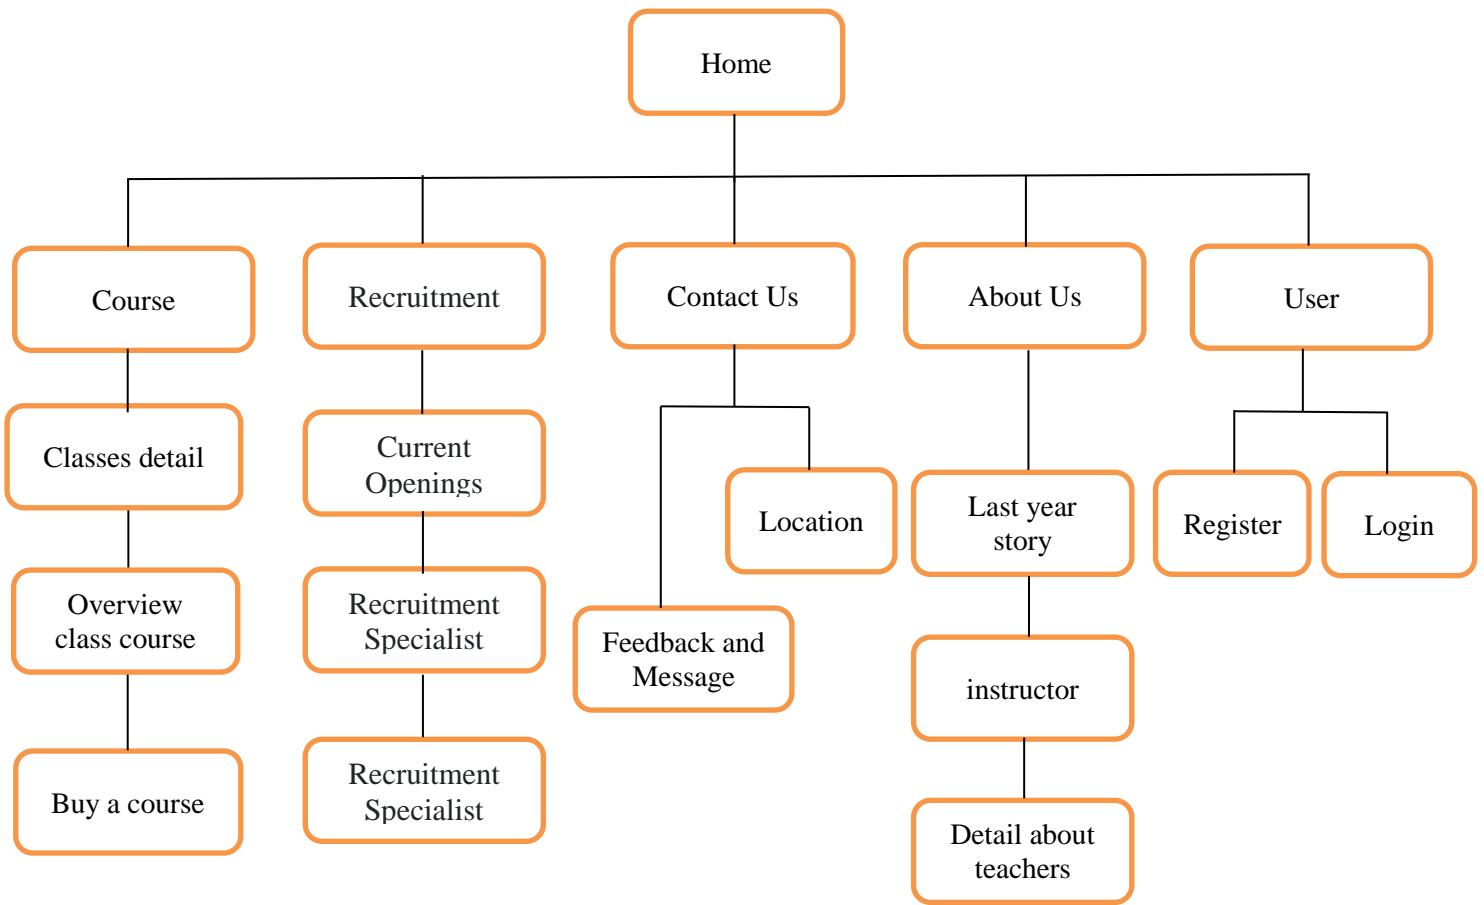

Software:

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

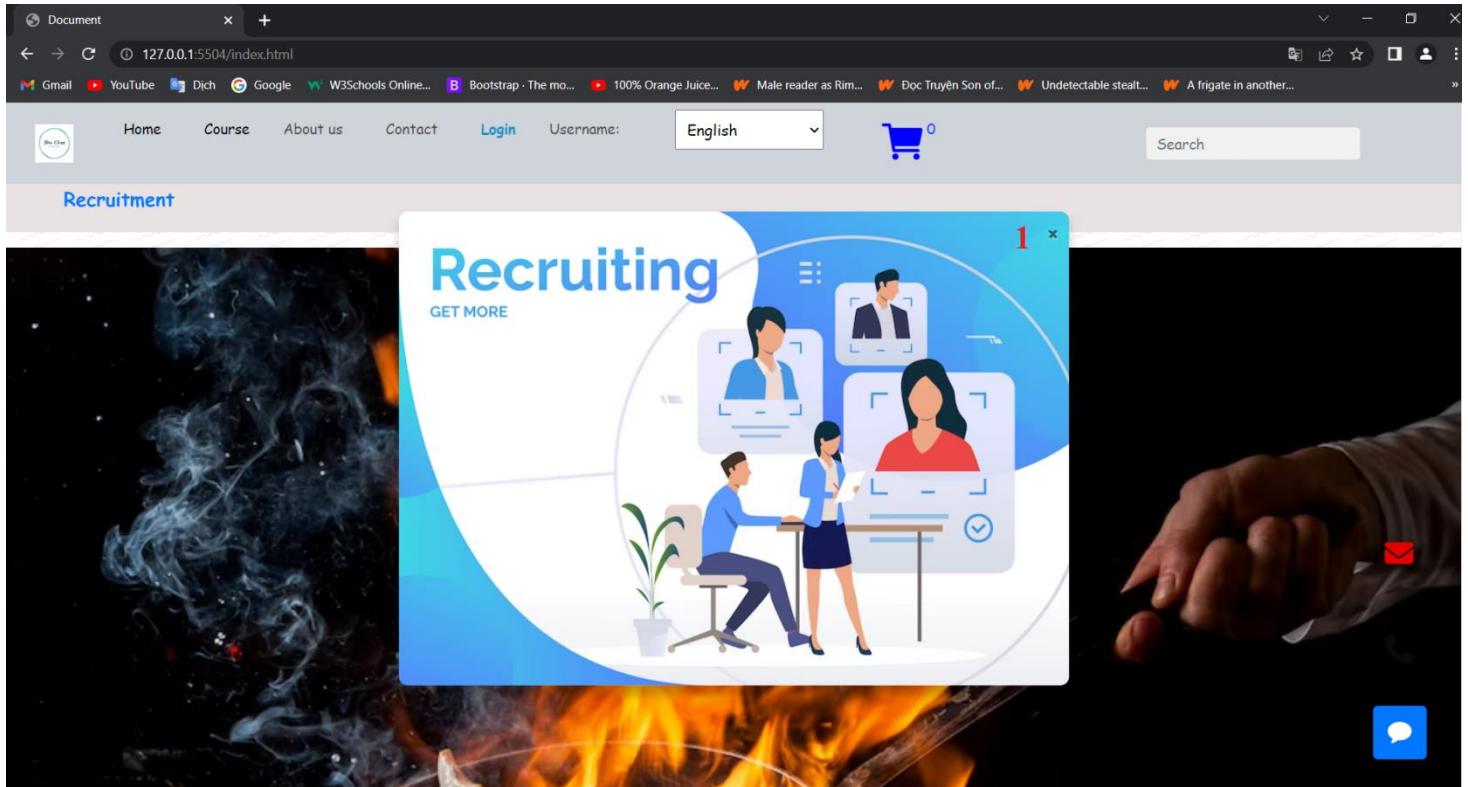

Hardware:

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or be

Frequently Asked Questions

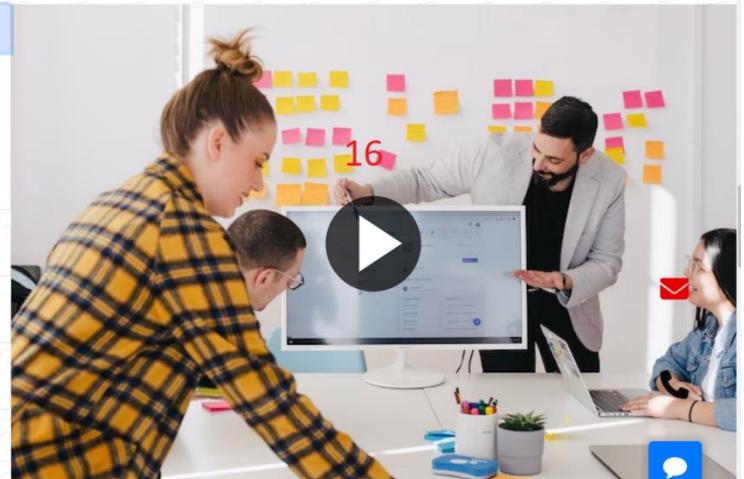

What are the admissions requirements ?

The admissions requirements typically refer to the criteria that applicants need to meet in order to be considered for admission to a particular institution or program. These requirements can vary depending on the institution and program, but may include factors such as academic qualifications, standardized test scores, letters of recommendation, essays or personal statements, and extracurricular activities. It's important to research the specific admissions requirements for the institution or program you are interested in to ensure you meet all necessary criteria.

What Students Saying

Sarah Anderson

Attending the gym has been a life-changing experience for me. I've seen significant improvements in my strength, stamina, and overall fitness. The guidance from my trainers and the supportive environment have motivated me to push my limits and lead a healthier lifestyle.

David Dell

Gym classes have helped me develop discipline and stay physically active. I enjoy the variety of workouts and the sense of accomplishment after each session. It has not only improved my physical well-being but also boosted my confidence.

Emily Johnson

Taking cooking classes has been a delightful and enriching experience. I've learned valuable culinary skills, discovered new recipes, and developed a deeper appreciation for different cuisines. Cooking has become a creative outlet for me, and I enjoy experimenting with flavors and techniques.

Weight Training Course Details

The Weight Training Fundamentals course is designed to introduce students to the principles and techniques of weightlifting for strength and muscle development. This course covers the essential components of weight training, including proper form and technique, exercise selection, program design, and safety considerations. Students will learn how to perform various weightlifting exercises effectively, design personalized training programs, and make progress towards their fitness goals.

Course Objectives:

Learn Proper Weightlifting Techniques: Master the correct form and technique for a variety of weightlifting exercises, including squats, deadlifts, bench presses, and overhead presses.

Understand Strength Training Principles: Gain a solid understanding of the principles of strength training, such as progressive overload, proper rest intervals, and exercise variation.

Develop Muscular Strength and Endurance: Learn how to structure workouts to improve muscular strength and endurance in different muscle groups.

IV. Interactive About Us Page

This Page Introduce About Us

The screenshot shows the homepage of Star Classes. At the top, there is a navigation bar with links for Home, Course, About us, Contact, Logout, and a dropdown for Username: DuyHau. There is also a language selector for English and a shopping cart icon showing 0 items. A search bar is located on the right side of the header.

Below the header, a main banner features the text "THE MODERN WAY TO LEARN!" and "Star Classes proudly teaching online courses with online experts throughout the world for the past 4 years." Four statistics are displayed in boxes: "200+ Courses" (with a book icon), "6.3k+ Students" (with a person icon), "4.20 Average CGPA" (with a trophy icon), and "96% Certified" (with a graduation cap icon).

A section titled "About Star Classes" follows, with a welcome message and a snippet of programming code. A blue speech bubble icon is visible on the right side of the page.

The screenshot shows the "Our Mission" section of the website. It features a large image of a person working at a desk with multiple monitors and laptops. To the right, the section title "Our Mission" is displayed, followed by a detailed mission statement.

Our Mission
At **Star Classes**, our mission is to empower individuals with the knowledge and skills to succeed in the dynamic world of programming. We are committed to providing top-notch educational resources and creating a supportive learning community that fosters growth, creativity, and innovation.

The screenshot shows the "Our history" section of the website. It includes a brief history statement and a large historical photograph of a group of people in front of a brick building.

Our history
With a passion for programming and a deep understanding of its impact, Programming Prodigy was founded in 2019. Since then, we have helped countless students, professionals, and coding enthusiasts embark on successful programming journeys. Our team of experienced instructors brings a wealth of knowledge and industry expertise to guide you through every step of your learning process.

43	Click “Pay Now” to pay our product If not login and click “Pay Now” will alert “You are not logged in!” If login and click “Pay Now” will alert “Payment Succes” and then Cart Empty.

A screenshot of a website showing a shopping cart page. At the top, there is a navigation bar with links for Home, Course, About us, Contact, Logout, and a dropdown for Username: DuyHau. To the right of the dropdown is a language selector set to English. Further right is a shopping cart icon with a blue border and a white '2' inside, followed by a search bar with the placeholder 'Search'. Below the navigation bar is a table listing two products in the cart. The first product is 'Weight Training Fundamentals' with a thumbnail image of a person working out, a price of \$39.99, a quantity of 1, and a total of \$39.99. The second product is 'Pilates Fundamentals for Core Strength and Flexibility' with a thumbnail image of people doing Pilates, a price of \$39.99, a quantity of 1, and a total of \$39.99. At the bottom of the page, there is a summary table with three rows: Subtotal (\$79.98), Tax (5%) (\$4.00), and Grand Total (\$83.98). A green button labeled 'Pay Now' is located at the bottom right. A blue speech bubble icon is also present in the bottom right corner.
